BUZIL – NEW CORRIDOR® PUR CLEAN S 766 PUR FLOOR CLEANER

Buzil adds the newly developed Corridor® PUR Clean S 766 PUR cleaner to the Corridor® floor cleaning and care range. The floor cleaner is particularly well suited to daily routine cleaning of factory-applied PUR treated elastic coverings of linoleum and PVC, vinyl and luxury coverings such as click and glue down flooring, as well as for sealed parquet.

S 766 has an intensive cleaning effect along with good material compatibility in terms of PUR treatment, therefore protecting the finish from wear and greying. The good dispersing properties do an excellent job of binding dirt during application. Flat mops take longer to become dirty, and can therefore be used for longer. Corridor® PUR Clean is also ideal for use as an intensive cleaner for end-of-construction cleaning. Large areas can be covered for streak-free cleaning in just a single step – and reduced costs.

Corridor® PUR Clean S 766 is available from October 2017 in 1 litre and 10 litre containers, and will be presented for the first time at CMS Berlin. The Buzil Corridor® product family sets the quality standard in the field of floor cleaning and care.
