## EROLCID® G 491 FOR PORCELAIN STONEWARE TILES – NOW WITH FRESH CITRUS SCENT.

Greyiness and dirty pores – stubborn, strongly adhering deposits and crusts need to be treated with heavy-duty cleaning agents. An excellent solution to this problem is the acidic intensive cleaner for porcelain stoneware and safety tiles **EROLCID® G 491**. The special cleaner with pore-deep cleaning effect and high dirt dissolving power removes limescale deposits as well as rust and cement residue spontaneously and powerfully from

microporous, fine-rough and acid-resistant materials. **G 491** is especially suitable for areas with high water hardness, in wet areas and following intensive and basic cleaning renovations. With the new formulation, **EROLCID® G 491** leaves a pleasant room atmosphere with a fresh citrus scent after cleaning. The phosphoric acid-based cleaner is available in 1 liter bottles and 10 liter canisters.

### ACID INTENSIVE CLEANER FOR PORCELAIN STONEWARE TILES
