

PERFECTLY CLEAN - FOR SURE

# INDUSTRIAL & WORKSHOP CLEANER PRODUCT OVERVIEW

## EFFICIENT, SAFE AND FAST. INDUSTRIAL BUILDING AND SYSTEM CLEANING WITH INDUMASTER®.

Whether you're dealing with oily or greasy dirt, specific contaminants such as glue, graphite, resin, rubber abrasion, heel marks or forklift truck tracks, or deposits of chalk, rust or minerals, you will need a reliable, fast-action dirt remover. Applications range from cleaning and care of industrial floor coverings and interior spaces such as ceilings and walls, a very wide range of metal and plastic surfaces as well as industrial glazing, to the cleaning, maintenance and care of production machines. Equally important are the product's short drying period, low levels of foam formation when used in cleaning machines, corrosion protection and environmental tolerability, for example in compliance with the Austrian standard (ÖNORM). Ensuring exemplary compliance in hygiene procedures is particularly essential in the food industry. Buzil has many years of experience and outstanding expertise in industrial and building cleaning, making it the right partner for these demands. INDUMASTER® industrial cleaners will enable you to achieve success when facing these challenges.

Preserving the value of machines and production facilities is our highest priority, as contaminants and improper care significantly increase the risk of faults and failure. INDUMASTER® and appropriate cleaning procedures and devices also greatly reduce the time required for routine cleaning and care.

Buzil also offers a full range of additional services. From customised property advice to creating cleaning schedules to customer-specific seminars and training: our experienced application specialists and the tried and tested Buzil Service Team will support you with a highly developed complete set of services. The service hotline and a comprehensive website complete our support offering, making sure customers have quick access to reliable information whenever they need it.

Surfaces

Floor

Kitchen

Special

Highly alkaline machine cleaner

pH 14

Quick-drying

**Indumaster® Fast IR 14**

For industrial applications; alkali-resistant and water-resistant floor coverings such as PVC, stone (unpolished), epoxy resin, concrete flooring, brick, earthenware slabs

■ Daily routine cleaning

**Product advantages**

- Quick-drying
- Dissolves oily and grease dirt
- With foam brake
- Removes rubber abrasion
- Fast-separating according to standard ÖNORM B 5105

**Container**  
10 l

Alkaline industrial floor cleaner

pH 13

Fast-separating

**Indumaster® Radical IR 40**

Workshops and industrial applications; alkali-resistant floors and surfaces

■ Daily routine cleaning

**Product advantages**

- For universal use
- Tough dirt dissolving power, especially industrial oils and greases
- Foam-inhibited
- Fast-separating according to standard ÖNORM B 5105

**Container**  
10 l, 200 l

Solvent-based industrial and sports hall floor cleaner

pH 5

Removes rubber abrasion

**Indumaster® Forte IR 42**

Industrial applications and workshop areas; proven in sports halls and warehouse floors; solvent-resistant floors and surfaces

■ Daily routine cleaning

**Product advantages**

- Good cleaning effect
- Removes heel marks, rubber abrasion and tyre abrasion from forklifts, lift trucks, handball resin etc.
- Targeted cleaning possible

**Container**  
10 l

Highly alkaline industrial floor cleaner

pH 13,5

High-performance cleaner

**Indumaster® Strong IR 45**

Industrial applications and workshop areas; alkali-resistant floors and surfaces; fire-damage restoration

■ Daily routine cleaning

**Product advantages**

- Outstanding dirt dissolving power
- Dissolves the stubbornest of dirt e.g. heavy soot, oil and grease deposits; graphite and rubber abrasion
- High dispersing properties

**Container**  
1 l, 10 l, 200 l

Intensive industrial cleaner, highly alkaline

pH 13,5

Low-foam

### Indumaster® Offensive IR 47

Industrial applications and workshops; alkali-resistant floors and surfaces; epoxy resin coverings; tiles; ceramic and screed flooring; heavy soot, oil and grease deposits

#### ■ Intensive cleaning

##### Product advantages

- Breaks down dirt
- Dissolves the stubbornest of encrustations
- Removes heavy rust, oily and greasy soil
- High dispersing properties
- Foam-inhibited

Container  
10 l

Ecological industrial floor cleaner

pH 10

Eco-certified

### Indumaster® Universal IR 55

Industrial applications and food industry; water-resistant materials, surfaces, floors and production machinery

#### ■ Daily routine cleaning

##### Product advantages

- Very good dirt, grease and oil dissolving power
- Eco-certified
- Material-friendly with good cleaning performance
- Fast-separating according to standard ÖNORM B 5105
- Foam-inhibited
- Meets automotive-manufacturer requirements for good dirt, grease and oil dissolving power

Container  
10 l, 200 l

Machine cleaner

pH 9,5

With anti-corrosion protection

### Indumaster® Protect IR 30

For industrial applications e.g. preserving cleaning of production machines e.g. CNC; lorry canvas covers and tarpaulins; all alkali-resistant materials, surfaces and floor coverings

#### ■ Daily routine cleaning

##### Product advantages

- Anticorrosive
- Very good wettability
- Dissolves oil, greasy dirt and soluble oils
- Fast-separating according to standard ÖNORM B 5105

Container  
10 l, 200 l

Kitchen-industrial cleaner, phosphate-free

pH 12

For use in the food processing industry

### Indumaster® Intensive IR 44

Food industry, workshops and industrial applications; alkali-resistant floors and surfaces

#### ■ Daily routine cleaning

##### Product advantages

- Intensive soil-removing action
- Dissolves excessive dirt from animal and vegetable oil and grease
- Declaration of clearance for the food industry

Container  
10 l, 200 l

Neutral special industrial cleaner

pH 8,5

Material-compatible

**Indumaster® Step IR 16**

For industrial use; all water-resistant surfaces and floor coverings; aluminium, stainless steel surfaces and acrylic glass; suitable for cleaning escalators and conveyors with machines

Hand-wash cream

pH 5,5

Neutral on skin

**Rinax® Top G 801**

For use within industry and workshops, for medium to heavy dirt

■ Daily routine cleaning

**Product advantages**

- Fast-acting power cleaner for manual and machine cleaning
- Good dirt dissolving power
- Dissolves oily and greasy dirt
- Very good wetting properties
- Very good material compatibility

**Container**  
10 l

**Product advantages**

- Pore-deep, intensive cleaning, neutral on skin
- Mild on the skin, even with frequent use
- Caring
- Viscous handwash cream with synthetic abrasive for pleasant massaging effect
- Specially for sensitive skin
- The pH value conforms to the acid mantle protective barrier of the skin

**Container**  
2,5 l, 10 l
