BOUCLÉ CARPETS (LOOP-PILE CARPETS)

Bouclé carpets, known as loop-pile carpets, are produced using a tufting procedure. In this process, special sewing machines sew pile threads into a fabric. In public or commercial buildings, coverings are mostly produced from a mix of synthetic and natural fibres.

CLEANING

DEEP CLEANING

	Dirt	Treatment	Cleaning device
Vacuum loose dirt, and remove chewing gum and colour stains manually using stain removal.	DIRT like protein, oil and grease or foodstuff residue e.g. coffee, red wine etc.	Remove dirt using Optiflor Ex G 477 spray extraction cleaner or O Tens G 500 surfactant-free cleaner. Spray the cleaning solution evenly over the floor, and leave it to work for approximately 10 to 15 minutes.	
		Then, rinse multiple times using the spray extraction device and water.	
		Depending on the level of dirt and the depth of pile, shampooing using Optiflor® G 470 may be possible as an alternative. Evenly shampoo the product into the textile fibres using a single-disc machine and shampooing brush.	
		Then, rinse multiple times with water, using the spray extraction device.

INTENSIVE CLEANING

	Dirt	Treatment	Cleaning device
Vacuum loose dirt, and remove chewing gum and colour stains manually using stain removal.	HEAVIER DIRT THAT IS ALKALINE-SOLUBLE like protein, oil and grease or foodstuff residue e.g. coffee, red wine etc. can be removed by intensive cleaning using O Tens G 500, using a bonnet cleaning pad method.	Spray the cleaning solution evenly over the floor, and leave it to work for approximately 10 to 15 minutes.	
		Clean the carpet using a single-disc machine and bonnet cleaning pad. <i>PLEASE NOTE: Replace the pads regularly.</i>	

SPECIAL CLEANING

	Dirt	Treatment	Cleaning device
Vacuum loose dirt, and remove chewing gum and colour stains manually using stain removal	WATER-SOLUBLE DIRT can be removed by stain removal using O Tens G 500.	Soak a colourfast cloth with the cleaning solution, and loosen the stain by dabbing.	
	WATER-INSOLUBLE DIRT such as chewing gum, glue residue, wax, shoe polish or tar can be removed by stain removal using Buz® Point G 502.	Spray Buz® Point G 502 onto a colourfast cloth and loosen the stain by dabbing.
