## FIBRE-BONDED CARPETS

Fibre-bonded floors are textile floor coverings that consist of a non-woven fabric that is strengthened both mechanically and adhesively. This strengthening is achieved with the aid of plastics and dispersion adhesives.

### CLEANING

#### DEEP CLEANING

|   | Dirt  | Treatment   | Cleaning device |
|---|---|---|-----------------|
| Suck up loose dirt, and remove mortar, plaster residue, chewing gum and colour stains manually using a stain removal product. | <b>ORGANIC/INORGANIC CONTAMINATION</b><br>e.g. heavy oil, grease and protein deposits or foodstuff residue, e.g. coffee, red wine etc | Remove dirt using Optiflor Ex G 477 spray extraction cleaner or O Tens G 500 surfactant-free cleaner. |                 |
|   |   | Then, rinse multiple times using the spray extraction device and water.                               |                 |

#### INTENSIVE CLEANING

|   | Dirt   | Treatment  | Cleaning device |
|---|--|--|-----------------|
| Suck up loose dirt, and remove mortar, plaster residue, chewing gum and colour stains manually using a stain removal product. | <b>HEAVIER DIRT THAT IS ALKALINE-SOLUBLE</b><br>can be removed by intensive cleaning using O Tens G 500, using a bonnet cleaning pad method. | Spray the cleaning solution evenly over the floor, and leave it to work for approximately 10 to 15 minutes.  |                 |
|   |  | Then, clean the floor covering using a single-disc machine and bonnet cleaning pad.<br><br>PLEASE NOTE: Replace or rinse out the bonnet cleaning pad frequently. |                 |
