## CLEANING PUBLIC TRANSPORT

**Surfaces** on public transport may be made from glass, as well as Formica, plastic and metal. You need to be able to remove everything from greasy handle marks and chewing gum to graffiti. The aforementioned materials are largely insensitive to slightly alkaline cleaners, but caring and abrasive cleaning and care products must not be used.

**Seats** may sometimes be made from synthetic textiles. Here, stain removal is a daily task and spray extraction is intensive cleaning.

**Floor coverings** are often made of rubber or plastic, which can be handled using slightly alkaline cleaners. Dirt from the street, chewing gum and scuff marks, the „burn marks“ left by rubber soles, are the challenge here.

### SURFACE CLEANING

#### INTENSIVE CLEANING

	Dirt	Treatment	Cleaning device
Pick up loose dirt.	<b>HEAVIER DIRT THAT IS ALKALINE-SOLUBLE</b> can be removed by intensive cleaning using Indumaster® Step IR 16 or Maradin HC 43*, with a wet wiping method.	Apply the cleaning solution evenly, and leave it to work for a short time.	
		Clean it with a suitable microfibre cloth or hand pad.	
		Pick up the loosened dirt, and rinse with water.	

#### SPECIAL CLEANING

	Dirt	Treatment	Cleaning device
Pick up loose dirt.	<b>GRAFFITI INDOORS (FELT-TIP MARKS, STAMPING INK, ETC.)</b> Remove felt-tip pen, ink, etc. using Buz® Mark Ex G 559.	Spray a cleaning cloth or hand pad with Buz® Mark Ex G 559 and clean the affected areas of the surface.	
	<b>CHEWING GUM OR ADHESIVE STICKER RESIDUE INDOORS</b> can be removed using Buz® Point G 502*.	Spray Buz® Point G 502 onto a cleaning cloth or hand pad, clean the affected areas of the surface, and then rinse with water.
