## GABBRO FLOOR COVERINGS

Gabbro is a hard, compact, coarse-grained igneous rock. It is formed in the earth's interior. Gabbro's grey-black, and occasionally blue-green colour is down to the high proportion of dark-coloured minerals. Gabbro is for the most part resistant to acids (with the exception of hydrochloric acid, and to a limited extent, phosphoric acid), alkalis (with the exception of caustic soda), and solvents. As a hard stone gabbro is resistant to mechanical strain; however, the more the covering is sanded, the more sensitive it becomes to scratching.

### CLEANING

#### DEEP CLEANING

	Dirt	Treatment	Cleaning device
Pick up loose dirt, and remove any mortar, plaster residue, and colour stains manually using a scraper.	<b>LIME DEPOSITS</b> in areas with high water hardness, as well as after renovations, can be removed using Bucasan® Clear G 463.	Pre-wet the floor covering (important for protecting the cement joints!), and apply the cleaning solution.	
		Deep clean using a single-disc machine and a white pad. <i>PLEASE NOTE: Do not use any cement residue removers!</i>	
	<b>RESIDUE FROM CARE PRODUCTS</b> in the form of coatings and care products can be removed using Corridor® Unic Ultra S 707, Corridor® Power Stripper S 708 or Planta® Multi Stripper P 321.	Pick up the loosened dirt using a wet vacuum cleaner, and rinse with water.	
		Apply the cleaning solution evenly over the floor, and leave it to work for approximately 10 to 15 minutes. <i>PLEASE NOTE: Do not allow the cleaning solution to dry.</i>	
		Deep clean the covering using a single-disc machine and a blue pad.	
		Pick up the loosened dirt using a wet vacuum cleaner, and rinse with water.

### INTENSIVE CLEANING

	Dirt	Treatment	Cleaning device
If necessary, pick up loose dirt.	<b>HEAVIER DIRT THAT IS ALKALINE-SOLUBLE</b>	Apply the cleaning solution evenly over the floor, and leave it to work for a short time.	
	like protein, oil and grease or foodstuff residue e.g. coffee, red wine etc. can be removed by intensive cleaning using Maradin HC 43.	Clean using a single-disc machine and a red pad.	
		Pick up the loosened dirt using a wet vacuum cleaner, and rinse with water.	

### DAILY ROUTINE CLEANING

	Dirt	Treatment	Cleaning device
Microfibre-based flat mops should be used to achieve optimum cleaning results.	<p><b>ORGANIC/INORGANIC CONTAMINATION</b></p> <p>like protein, oil and grease or foodstuff residue e.g. coffee, red wine etc.</p> <p>Products with a significant care element, such as the soap-based Buz® Soap G 240 wipe care product or the water-soluble polymers Corridor® Daily S 780 and Planta® Clean P 315 are well-suited to daily routine cleaning.</p> <p>The ultra-moistening Roca Wipe R 300 floor maintenance cleaner is particularly well-suited if the floor covering is impregnated or highly polished.</p>	Choose manual floor cleaning

## CONTINUED: CARING FOR GABBRO FLOOR COVERINGS

### INITIAL TREATMENT

Care	Treatment	Cleaning device
<p>In order to retain slip resistance and the look of the natural stone coverings, they should not be coated, impregnated or subject to initial treatment. However, if it is necessary to apply a coating, Roca Dispers R 200 is a very good option.</p>	<p>This full care agent for stone floors is applied evenly and in undiluted form, in 2-3 thin layers, and each individual layer must be left to dry completely.</p>	
	<p>Polishing is not required.</p>	

### IMPREGNATION

Care	Treatment	Cleaning device
<p>To significantly reduce the dirt absorption capacity of the floor covering, it is impregnated with Roca Pregno R 100.</p> <p><i>Detailed information on impregnation using the Roca system is available in our "Impregnation" cleaning recommendation. PLEASE NOTE: Impregnation is only possible on non-primed coverings that have also not been subject to initial treatment.</i></p>	<p>Use a flat mop to apply Roca Pregno R 100 undiluted, in thin layers.</p>	
	<p>After a drying time of approximately 30 minutes, remove any excess product that has not yet permeated using a squeegee, and then polish the covering with a soft, absorbent pad (e.g. Coral rosa from Dolly).</p>
