LAMINATE FLOOR COVERINGS

Laminate floors have a hardboard sheet as a carrier material (a plastic carrier is often also used). There is then a decorative layer on this carrier material. Melamine resin (artificial resin laminate) is applied as a wear layer for the purpose of protection. Laminate floors are extremely sensitive to wet (risk of swelling).

CLEANING

DEEP AND INTENSIVE CLEANING

	Dirt	Treatment	Cleaning device
Pick up loose dirt, and remove mortar, plaster residue, and colour stains manually using a scraper/hand pad.	HEAVIER DIRT THAT IS ALKALINE-SOLUBLE	Clean manually using an appropriate, lightly spray-dampened microfibre mop.	
	like protein, oil and grease or foodstuff residue e.g. coffee, red wine etc. can be removed using the intensive cleaner Corridor® PUR Clean S 766 applied by wiping.	Lightly spray the floor with cleaning solution mechanically, and clean the floor using a single-disc machine and a red pad.	
		Replace the pad regularly. <i>PLEASE NOTE: Avoid excess water!</i>	

SPECIAL CLEANING

	Dirt	Treatment	Cleaning device
If necessary, pick up loose dirt.	GLUE RESIDUE	Apply the product to an appropriate cloth or hand pad and remove stains from the affected areas.	
	Buz® Point G 502 stain remover and Indu-master® Forte IR 42 solvent-based cleaner used at 1:1 dilution, are ideal for removing glue residue.	Lightly dampen with clean water and wipe clean. <i>PLEASE NOTE: Always perform a colour-fastness test/material compatibility test in advance, in an unobtrusive area.</i>

DAILY ROUTINE CLEANING

	Dirt	Treatment	Cleaning device
Microfibre-based flat mops should be used to achieve optimum cleaning results.	ORGANIC/INORGANIC CONTAMINATION		
	like protein, oil and grease or foodstuff residue e.g. coffee, red wine etc. Products without a care element, such as Polybuz® Trendy T 201 and Buz® Wipe G 270 gloss cleaners, and the high-moistening Roca Wipe R 300 floor cleaner or Corridor® PUR Clean S 766, are well-suited to daily routine cleaning.	Lightly dampen with clean water and wipe clean. <i>PLEASE NOTE: Wetness must be avoided!</i>	

CARE

INITIAL TREATMENT

Due to their high-quality surface characteristics, laminate coverings cannot be coated or subject to initial treatment.
