## STAINLESS STEEL SURFACES

When it comes to professional contract cleaning, we mostly find chrome-nickel steel (V2A steel) or chrome-nickel-molybdenum steel (V4A steel). These rust-free steels ("stainless steels") are for the most part alkali-resistant. Hydrochloric acid, sulphuric acid and hydrochloric acid corrode stainless steels. Polished stainless steel surfaces are very sensitive to scratching. Abrasive cleaners and abrasive additives are inappropriate and scratch the surface. After cleaning, sanded and brushed stainless steels often have a non-uniform, patchy and streaky appearance, mainly caused by dried minerals and also, to some extent, cleaning agent residue.

### CLEANING

#### DEEP CLEANING

	Dirt	Treatment	Cleaning device
Pick up loose dirt, and remove mortar, plaster residue, and colour stains manually using a soft hand pad.	<b>LIME DEPOSITS</b> in areas with high water hardness, as well as after renovations, can be removed using Buz® Contracalc G 461 acidic descaler.	Pre-wet the surface, and apply the cleaning solution to an appropriate cleaning cloth or sponge.	
		Deep clean using a microfibre or active fibre cloth.	
		Rinse the cleaned surface thoroughly with water.	
	<b>ORGANIC/INORGANIC CONTAMINATION</b> e.g. blood, heavy oil, grease and protein deposits or foodstuff residue e.g. coffee, red wine etc. can be removed using Bistro G 435 or Perfekt G 440 alkaline degreasers.	Clean the surface with a suitable cleaning cloth.	
		Rinse the cleaned surface thoroughly with water.

### SPECIAL CLEANING

	Dirt	Treatment	Cleaning device
Pick up loose dirt.	<b>OXIDATION AND ADHESIVE DIRT</b>  like rust can be removed using Buz® Me-tasoft G 507.	Pre-wet surface and apply Buz® Metasoft G 507 onto an appropriate hand pad or cleaning cloth.	
		Clean the surface (in the direction of the brushing).	
		Thoroughly rinse with water.	
	<b>GRAFFITI</b>  (marker pens, stamping ink, etc.) can be cleaned off using Clean Up G 555 ready-to-use stain remover.	Spray Clean Up G 555.	
		Clean the affected areas of the surface.	
		Then rinse with water.	

### DAILY ROUTINE CLEANING

	Dirt	Treatment	Cleaning device
Pick up loose dirt.	<b>GREASY DIRT</b>  The ready-to-use Reso Clean G 515 spray cleaner or protective Vario Clean T 560 cleaner are well-suited to daily routine cleaning of greasy dirt like protein, oil and grease or foodstuff residue e.g. coffee, red wine etc.	Spray the product onto a cleaning cloth and use it to clean the surface	
		Further rinsing with water is not necessary.	
	<b>INFECTION PREVENTION</b>	The Buzil Budenat® portfolio surface disinfectant is ideal for defined areas (see Disinfectants).
