BUZIL-WERK Wagner GmbH & Co. KG

OILED/WASHED WOODEN SURFACES

In order to aid good building biology, wooden surfaces are often impregnated with special oils and waxes in order to broadly retain the breathability of this natural material. Oiled and washed woods react extremely sensitively to moisture. As all types of wood surface are sensitive to moisture, prolonged exposure to wet must be avoided.

CLEANING

DAILY ROUTINE CLEANING

	Dirt	Treatment	Cleaning device
If necessary, pick up loose dirt	ORGANIC/INORGANIC CONTAMINATION like protein, oil and grease or foodstuff residue e.g. coffee, red wine etc.	Spray Buz® Finesse G 542 undiluted onto an appropriate cloth, and use it to clean the surface.	
	Furniture care products such as Buz® Finesse G 542 are well suited to daily routine cleaning and care of oiled or washed wooden surfaces.	If necessary, remove excess product with a dry, absorbent cloth, and polish the surface.
