buzil
company

Ask us how to turn sustainability and your cleaning services into an efficient team.

As a cleaning professional, what can I change to protect the environment?
How ecological are the products I use? Are they produced efficiently in
terms of energy usage? Am I doing everything possible to minimise harm
to our environment?

With Planta, you can quickly and easily make sustainability an integral part
of your cleaning process.

Product information

Type of cleaning:	Coating (dispersion / hard coatings)			
Progress of work:	Preparation: Stripping the floor thoroughly (with Corridor® Multi Stripper P 937). Completely remove old polymer layers and dirt. Allow floor to dry, at least on the surface in the case of linoleum.	Coating: Apply undiluted 2 to 3 times thinly and evenly with flat wet-mop or suitable microfiber wiper cover. If necessary, apply in sections. If possible, work wet on wet. Ensure sufficient drying time between applications (at least (min. 30 min).		Cleaner/Spray-cleaner of floor coverings: Can be used with single-disc machine or high-speed machine with sprayer or hand spray bottle.
Dosage:	-/-	Undiluted		1 : 2 with water
Pictogram:	-/-			
Suitable for:	Rubber; linoleum; PVC; Coatable PUR coverings; Coatable natural and artificial stone			
Note:	<ul style="list-style-type: none">• Protect against frost. Avoid direct sunlight.• Switch off sources of heat before use (heating radiators, floor heating).• A single, temporary exposure to the surface without mechanics is tested in comparison to customary disinfectants (max. 15 minutes permanent stress) and causes no damage to the coating surface.			
Classification:	<ul style="list-style-type: none">• Non-labeling according to CLP regulation (GHS)• EUH208 Contains 1,2-Benzisothiazol-3(2H)-one, Methylchloroisothiazolinone, 2-Methylisothiazol3(2H)-one, 2-Octyl-2H-isothiazol-3-one. May produce an allergic reaction.• P280, P302+P352			

Vamat®+ Fett Ex

P 940

Ecological oil and grease remover

For use in food processing areas such as bakeries, butchers and commercial kitchens in restaurants and hotels, etc.; for cleaning all washable and water-resistant surfaces and materials made of plastics and metal, as well as floor coverings

Product benefits

- Eco-certified
- Universally applicable kitchen intensive cleaner for stubborn, older soiling
- Removes heavy protein, oil and grease stains
- Free of dyes and perfumes
- High material compatibility
- Meets the requirements within the framework of an HACCP concept

An invitation to make a change

Highest-quality cleaning with a sustainability guarantee.

Planta lets you operate in an ecologically sound manner without sacrificing cleaning performance and efficiency.

How sustainable is your current cleaning strategy?

Sustainability is gaining importance in the professional cleaning industry. Many of your customers are already thinking about being more environmentally conscious. By using Planta products, you can make a statement and show that you stand for responsible business practices.

Planta, the sustainable brand from Buzil, is ready to launch

It will be entering the market with a new logo and a modern product design. The Planta symbol indicates that the circular economy is an important issue for us. It emphasises our respect for nature and its resources. You can tell at first glance that Planta stands for sustainable cleaning. That's what differentiates Planta from other cleaning agents.

Why is the new Planta design a plus?

Planta quickly communicates which application the product is suitable for – without language barriers. In the new design, this is shown in a **photo (1)**. The new **logo (2)** shows that Planta is a green and eco-friendly brand. The **brand signet (3)** emphasises how important the circular economy is to us in product development and production. Overall, we have simplified product handling through **visual clarity (4)**.

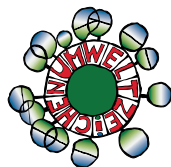

What benefits does Planta offer when working with customers?

Market studies show that customers of cleaning service providers increasingly prefer environmentally friendly cleaning and hygiene solutions. The Planta product range enables you to perfectly meet the sustainability requirements of your customers.

Every product in the Planta range has at least one ecolabel

The EU Ecolabel was launched by the European Commission in 1992. It identifies products that are eco-friendlier and healthier than similar products. The Austrian Ecolabel is an independent seal of approval for environmental awareness and quality.
